2. As noted in our conversations regarding this matter, it should be pointed out that it is necessary to assume many other participants in the project affairs can reasonably be considered to have surmised the existence of some facility comparable to HTAUTOMAT. Such personnel, however, obviously would not encounter related information such as techniques or organization. Accordingly, no attempt is being made to outline to you such a comprehensive listing of our project personnel.

3. Should you require additional information please contact the undersigned.
